SPRING SHOW

Saturday 1 April 2023

This year we again hope to organise the Show in conjunction with the Charlbury Art Society Spring Exhibition. We therefore will open the Show at 12 noon, immediately after the judging.

There is one cup to be awarded at this Show, the **Ian Tolpudd Cup**, for the Best Exhibit in the Show. There is no prize money.

The Spring Show can be a wonderful sight. Segregating daffodils into different classes shows their variation and subtle colour changes to best effect. Don't forget the other classes especially tulips and flower arrangements. Plant material for the arrangements (classes 14-18) need not have been grown by the exhibitor.

NARCISSI

These blooms are commonly called daffodils. *Narcissi* is the generic name for all of these. There are in fact 12 different divisions and upward of 26,000 cultivars of daffodils so classification can be a problem. The Society has simplified this classification for the purposes of this Show so if you are uncertain, **bring your blooms along on the morning of the show and consult the Show Team.** *Note that the diameter of the cup is not relevant for classification purposes; it is the length of the cup that is important.*

Cyclamineous

Petals must be swept back

Small Cup

Single stem – length of cup less than or equal to 1/3 length of petals

Large Cup

Single stem – length of cup more than 1/3 length of petals but less than length of petals

Trumpet

Single stem - length of cup must be at least as long as length of petals

Showing Tip: Pick daffodils three days before the show when they are just beginning to open. Keep for two days in a cool place then bring them into the warm the day before the show.
